Not all farms are created equal. Not all of them are capable of producing big bucks. Its definitely not everyday that one hits the open market. Today is that day.

This area has been a proven big buck producing area for years, and now here is an opportunity to get the farm you've always wanted.

This area is rich with Whitetail history and plenty of Turkeys.

Secluded access will make this property hunt bigger and keep the traffic down.

There is a couple nice food plot locations.

24 open acres area blank slate to increase the food source or bedding. Food plots, Alfalfa Fields, or Switch Grass would all help create a wildlife heaven.

More open acres are available if desired.
