****Take another look** Price Improved - 4 Crossings installed**

This farm is now easily accessible with 4 new crossings installed. 2 with concrete bottoms! There is crossings at both the East and the West ends of the first field allowing access with any wind.

This farm has Potential! To say this place is home to a multiple species of wildlife is an understatement. From the deer standing in the entrance, to the beat down deer trails I followed. The quail running downing the fence line, the ducks on the pond, or the turkey feathers and scratching. This place is for sure full of wildlife.

The owners have not hunted this place in several years; however the cover and CP-38 Safe food plots have been maintained allowing this property to serve as a refuge for the entire area.

The neighboring tracts also run a hunting operation with a quality whitetail deer, and upland bird hunting management plan. With wild birds in the area and the addition of escapee's make this maybe one of the only places I would dare mention upland bird hunting in the state.

The wetlands in the bottom will provide an additional offering of waterfowl hunting for those looking for more out of a place. If your not a waterfowl person don't worry. This habitat only further adds to quality of hunting on this tract as Deer, Turkey, Pheasants and other small game utilize its cover. My deer stand would definitely be in this location. The compatible use agreement states up to 3.4 acres of food plots can be planted in this area as long as they are no larger than 1 acre in size with a 50' buffer between them.

Depending on how one chooses to hunt this farm easily has 7-8 spots one could choose from for bow stands, and 4 tower blind Locations. Check out the trail cam photos!!

As far as income the farm was set up again with upland wildlife in mind. 31.75 acres are currently enrolled into CP-38 Safe - a Missouri Bobwhite Quail Program that requires 1/2 annual food plots and 1/2 fallow. The 31.75 acres pays \$147.59/Acre or \$4686 annually and expires on 9-30-2032. There is another 3.33 acres enrolled into CP21 a continuous sign up program. It pays \$174.14 and acre for an annual payment of \$579 and expires 9-30-26. The two CRP contracts combined bring in an annual income of \$5265.

This topographic map displays a wetland area, characterized by a large blue-shaded region at the bottom. The map includes contour lines indicating elevation, with labels such as 741, 744, 750, 753, 756, 759, 762, 765, 768, and 774. A prominent yellow rectangular boundary outlines a specific area of interest. Key features include a road labeled 'NE Catawba Rd' running vertically on the left, and a road labeled 'NE High Point Dr' running horizontally at the top. A small inset map in the upper right corner shows the location of the study area within a larger regional context. The map is overlaid on an aerial photograph, providing a detailed view of the terrain and surrounding landscape.
