Land and time have a lot in common. They're a limited resource. They're extremely valuable and one is worth more as the other passes by.

These days, longevity is rare. The products we buy. The vehicles we drive. The very nature of our daily lives revolves around instant gratification.

For nearly 3 quarters of a century, this farm has been owned by the same family. When you stop and consider all that's changed throughout each month, year, and decade that's passed it really makes you think. We've seen a lot of eras come and go. But this farm has remained a family heirloom. Now, for the first time since 1948, this 318 acre farm is available for purchase.

Located in Randolph county, not far from Thomas Hill Reservoir, this farm, offered in 2 tracts is an excellent opportunity that offers many possibilities.

- Tract 1: 157 acres with 47.8 acres of cropland with balance in ponds, and pasture acreage. There is a cattle lot and storage facility on this property, good fencing, and a large portion of the property could easily be converted into tillable acreage.
- Tract 2: 161 acres to the southeast includes over 114 tillable acres with the opportunity for more. Ponds, cattle facilities, fencing, and gates round out the acreage. A 2 bedroom farmhouse, multiple storage buildings, and a large shop make for a perfect place to live, work, or rent for additional income.

The property has been well-cared for and maintained by local tenants and has good gravel and blacktop road access. The farm is 6 miles from Huntsville, 13 miles from Salisbury, and not far from Moberly or Macon.

If you're in the market for acreage, this farm is the perfect place to add to your family's operation for the next 75 years or more.

For more information on these 2 parcels of Randolph county farmland, contact Dave Atkinson at 660-788-3333.

Taxes: \$1396.21
